Todor "Todd" Papazov | He/Him | 914-536-5246 | Westfield, IN | todor.papazov1@gmail.com

PROFESSIONAL SUMMARY

Results-driven Data Analytics professional with 7+ years specializing in data preparation, exploratory analysis, data pipeline development, transformation, and statistical/ROI modeling for healthcare operations and financial services in regulated environments. Expert in Python (Pandas, NumPy), SQL, and Snowflake to wrangle, profile, clean, transform, and analyze 1M+ record datasets. Proven implementation of data analysis pipelines and exploratory analyses that reduced reporting errors by 25% and supported \$19M cost savings + 15% revenue growth. MBA-trained analyst partnering with stakeholders to drive data initiatives that deliver actionable insights and operational excellence.

SKILLS

Python (Pandas, NumPy) | SQL (Advanced) | Snowflake | Data Pipelines & ETL | Exploratory Data Analysis (EDA) | Data Wrangling & Transformation | Statistical Modeling & Forecasting | Power BI (Dashboards, DAX, KPIs) | R | Advanced Excel / Power Query | Feature Preparation for Analytics | ROI & Financial Modeling | Data Governance & Quality

PROFESSIONAL EXPERIENCE

Operations Data Analyst | TRIMEDX - Indianapolis, IN (Healthcare Operations & Technology)

Dec 2024 - Present

- Led data preparation, wrangling, and exploratory data analysis (EDA) on 1M+ record healthcare datasets using Python (Pandas, NumPy), SQL, and Snowflake; built transformation pipelines and controls that reduced reporting errors by 25% and improved accuracy for leadership decisions.
- Developed end-to-end data pipelines and transformed raw data from CMMS, RTLS, and EHR systems to feed Power BI dashboards tracking KPIs, performance metrics, and risk signals for exploratory analysis and data-driven strategies.
- Performed feature preparation, data modeling, and statistical analysis with Python, SQL, and Snowflake to support forecasting, ROI modeling, and large-scale analytics across enterprise platforms.
- Partnered with Clinical Engineering and operations leaders to deliver scalable data analysis and reporting solutions with embedded pipeline automation and data standards.
- Supported forecasting and ROI modeling with rigorous data preparation and validation; recommendations contributed to \$19M annual cost savings through data-informed operational improvements.

Portfolio Analyst | TRIMEDX - Indianapolis, IN

Nov 2022 - Nov 2024

- Performed portfolio analysis, financial modeling, and exploratory analysis on large datasets using SQL, Python, and data modeling with strong focus on data wrangling, transformation, accuracy, and standardization.
- Prepared forecasting models, performance summaries, and feature-ready datasets ensuring data accuracy and compliance for senior stakeholders; supported quarterly reporting initiatives.
- Delivered data-backed recommendations through high-quality exploratory analysis and modeling that contributed to a 15% revenue increase via contract optimization and improved data integrity.
- Automated data pipelines and standardized ETL/reporting workflows, enhancing data consistency, reducing errors, and improving team productivity by 20%.

Registered Wealth Management Client Associate | Merrill Lynch - San Francisco, CA (Financial Services - Highly Regulated)

Aug 2019 - Aug 2022

- Analyzed portfolio and performance data using exploratory analysis and data preparation techniques with rigorous focus on accuracy, completeness, and compliance in a highly regulated wealth management environment to support forecasting and decision-making.
- Created reports, visualizations, and data pipelines ensuring data quality and integrity to communicate performance, risk trends, and insights to advisors and leadership.
- Delivered data-driven recommendations and statistical summaries while maintaining high standards of data accuracy, compliance, and reporting quality in regulated financial services.

Relationship Manager | Bank of America - San Carlos, CA

Dec 2016 - Aug 2019

- Conducted performance tracking, client data analysis, and exploratory analysis with emphasis on data preparation, wrangling, and accuracy to support operational decisions and client experience improvements.
- Partnered with leadership to deliver insights using validated, prepared datasets and analysis pipelines, consistently exceeding quarterly targets.

EDUCATION

Master of Business Administration (MBA), Finance and Investment Banking - Lincoln University
Bachelor of Science, Economics - University of Economics - Varna

CERTIFICATIONS

Snowflake Platform Associate Certification | SQL Data Analyst - DataCamp | Microsoft Excel Advanced - Udemy
